EXCITING DEVELOPMENTS THIS YEAR

This year every student will have access to a personal Chromebooks in their classroom. We are also venturing into ELearning so that when weather closes school students can still be learning and interacting with their teachers. Changes to Friday afternoons have also been made, while our teachers are engaging in professional development, students will be working on project based learning, handwriting, reading and math with support from MTCS staff.

MTS Elementary mission: To provide learning experiences with high expectations that support academic growth and enhance individual character in partnership with students, families and community within a supportive, safe and stable environment.
