A SEAC (pronounced “seek”) is an acronym for Special Education Advisory Council, which is a group that provides input on special education issues to Minnesota Transitions Charter School(MTCS). Its purpose is to advise and advocate, not to decide policy.

MTCS's SEAC can provide input on the development of programs and services to meet the special educational needs of children and families. By sharing their unique perspective of what it is like to use these services, parents can help the district to be more effective. As a result, outcomes for children with disabilities should improve.
